

	<b>Material Specification Sheet</b>	<b>Code AC.001.304</b>
---	---	----------------------------

### **NATURAL STAINLESS STEEL 304**

Finishing realized internally by Officine Fanesi.

#### **DESCRIPTION:**

It consists of a sheet of 304 scotch brite stainless steel, treated with a product that create a protective film

#### **AESTHETIC APPEARENCE:**

#### **CLEANING:**

Use only a microfibre cloth or cotton dampened with water or special neutral products. Do not use abrasive cloths or aggressive solvents. A maintenance kit is supplied for the care of the kitchen, including a product bottle used to restore the protective film with a cloth, and a product for routine cleaning. We recommend performing the treatment only when it loses its water repellent property. Carefully follow the instructions located inside the package.
